Greg Bock

### **Anue Water Technologies promotes Bock**

Anue Water Technologies promoted Gregory Bock to the new position of vice president general manager. Since July 2018, he served as Anue's vice president operations. In his new role, Bock will be responsible for operations and all commercial relations. This includes the company's line of FORSe and Phantom systems for wastewater treatment through oxygen and ozone injection, remote digital telemetry systems, Enviroprep systems for rapid elimination of FOG, and carbon-impregnated Anue geomembrane covers for cost-effective odor control.
